| While driving on Doewood Drive near 19380, I saw a small white male dog walking down the middle of the road. I was able to get the dog which was not wearing a collar or other ID. I spoke to a couple of nearby residents and no one knew the dog or it's owner. I brought it to the office and scanned it, no microchip present. The resident at 19370 Doewood Drive told me if I couldn't find the owner via microchip that she would keep the dog for a couple days and post it online. She gave permission to give out her address and phone number if anyone called looking for the dog. |             |                           |            |                     |                             |
