PID 4936 reported that juvenile, PID 4937 and a friend were ringing doorbells and throwing snowballs at the windows of the townhomes. Upon arrival I inspected the windows and could see where snowballs had impacted them. I contacted PID 4937 at the above address, he stated that his mother, PID 4938, was not home at the time. 5W47 and myself had already warned both of these juveniles, at the request of PID 4938, against behavior like this in November of 2014. I warned them again not to engage in this behavior and said that I would follow up when PID 4638 returned home. After clearing the scene I received a phone call from PID 4938 who was quite upset that her neighbor called us on them again. I explained to her that we respond to every call and I reiterated our previous talk with the juveniles in November. While I was on this phone call 5W47 radioed to inform me that a call from the RP's address had come into EPSO dispatch. I met with 5W47 and an EPSO deputy to debrief nearby. While debriefing the deputy, dispatch reported that the complaint had escalated to a disturbance. Call handed off to EPSO.
