RP, PID 5437, advises that there is a large semi parked in the southbound lane at the top of the hill on Lower Lake Road which is blocking traffic and causing vehicles to have to go into the oncoming traffic lane to get around him. Upon arrival I did not see a semi truck. I saw the white pick up (from report 102954) still legally parked and a pump truck cleaning out the port-a-potty. Advised RP of findings. He requested that we attempt to locate and contact the builder to see if they would instruct there subcontractors to post a traffic controller when they are dropping off/picking up large equipment or dirt.
