<p>RP states a grey and black dog from the above address was in their yard. RP made reference to WPS report #114757 where 5W43 made contact with the dog's owner and gave a verbal warning. I found the dog and noted that it was away from the owners address and was going thru several different yards. I contacted the dogs owner and asked that he call his dog back onto his property. The dog came back onto the property via the front yard. The dog was wearing 3 separate collars; one for tracking, one for an "invisible fence", and one for identification.</p> <p>The owner explained that the dog keeps jumping over the fence in the backyard and that he is working to get the fence built higher and the dog is receiving obedience training. RP had stated that the dog gets out and "kills small animals (rabbits)" and that they are fearful that the dog will attack other small dogs or children. While speaking with the owner, the dog approached and appeared to be friendly. Given that the dog was reported loose on the 13th of August and WPS had given a verbal warning, I gave the owner at the above address a violation notice for "Dog Not Restrained".</p> <p>I followed up with the RP by phone and advised of the outcome. RP advised that she had also contacted the Humane Society and that they were going to follow up with the owner and issue a citation as well.
