TLFD dispatched to Woodmoor Drive and White Fawn for a single vehicle roll over, blocking the roadway, with no injuries. I responded and closed the roadway until the tow truck arrived and cleared the vehicle from the roadway. There was also a single vehicle crash into the ditch and a two vehicle crash on scene. All with no injuries. CSP was on cold reporting and did not respond since there were no injuries in any crash.

RP, PID 5542, reports two vehicles parked on the road adjacent to the above address were blocking her driveway and difficult to back her vehicle out. I contacted PID 5543 who agreed to move the vehicles belonging to guests at her residence. The roadway for Rockledge is very small and the two vehicles were not parked far enough for PID 5542 to back out safely.

RP reports a suspicious white pickup truck in front of the above address. She states it is a white pickup truck with a ladder on top with a 'cardboard' sign on it that says "Comcast". She said it just looks suspicious since the owners of that house have a dish. Upon arrival the vehicle was gone and a check of the area met with negative contact. Checked with the home owner at the above address and she didn't know anything about the truck as they don't have Comcast. She said she never saw it.

RP, son of resident at above address, reports his mother said that there were two men in her backyard with a rifle. Upon arrival I contacted two adult men and a woman in the backyard with a pellet gun. They were trying to shoot a drone that became stuck in a tree in the hopes they could dislodge it. I advised them that they needed to get the homeowner's permission to be on her property. I spoke to the RP and she said it was okay, but wishes they had asked first before they scared her. Code 4.
