RP, PID 5716 states his neighbor PID 1780 was on her deck taking pictures of his children who were doing yard work. RP states that this is not the first incident with PID 1780, as she has engaged in harassing him and his family in the past with complaints and taking pictures of his children. I advised the RP that he needs to report this and past incidents to EPSO. I advised the RP that I would also take a case report to document the incident.

RP called and reported a dog barking at the above address. I arrived in the area and was able to immediately verify that the dog (a Dark colored dog) was barking excessively from behind the house in the fenced off area. I attempted contact at the front door, but no one answered. Violation notice left at the front door.

<p>RP reports a lime green 4x4 pulled into the parking lot at Toboggan Hill and the driver got out and went into another car, grabbed something and returned to his car and left. Thought it was odd and requested WPS check on the car. Upon arrival I found an older Blue Ford Explorer with no license plates visible. The car was secured. There is what appears to be an air-soft or BB gun rifle in the car. There are also some shotgun shells and at least one other unknown bullet in the center console. I left a violation notice on the Ford for unregistered vehicle in the common area.</p>
