While I was on the phone with dispatch, the male party I observed walking on Tam O' Shanter walked up. He said he did not have an ID and asked if he could leave. I advised him EPSO was enroute and would like him to stay but he was free to leave. He became belligerent and walked off and I noticed that he had a hammer or hatchet handle hanging from his belt. Dispatch remained on the phone with me the entire time until the deputy arrived. As PID 5844 was walking away, he turned around and started walking towards me aggressively. I advised him to stay back and his girl friend managed to move him back away from me. Both suspects went by the front door as PID 5844 kept cursing and yelling. A Deputy, PLPD, and MPD officers arrived on scene. While they were talking to the suspects, I checked the house to make sure it was still secure which it was. We spoke with the mother of PID 5844 and determined that he was related to the homeowner however we could not verify that with the owner so both suspects were asked to leave and they complied. The homeowner later returned my call and advised PID 5844 suffers from PTSD issues from his military service but they do not want them at the house while they are not home.
