<p>RP from the above address states a raccoon in the area possibly has rabies. Myself and 5W48 arrived on scene and immediately found the animal. The animal appeared to be suffering an illness that was causing the animal severe distress most likely Distemper. I called the DOW who referred me to the county level as they do not deal with "nuisance" animals. I then called the El Paso County Department of Health to report the animal. Alpine Animal control responded to secure the animal for testing. We kept the animal in sight until it was removed from the area. Department of Health will call on Monday or Tuesday to report their findings.</p> <p>Follow Up - 07/24/19 at 0856 hours. Tabitha from the EPC Department of Health called to report that the raccoon was elderly and was suffering from muscle loss which was causing it to act in an erratic manner as it couldn't move well. The decision was made to euthanize the raccoon and then it was tested for rabies and the results of testing were negative.</p>
