As they passed, I waived for them to stop and the vehicle went around me and then took off out of the parking lot. I attempted to follow the vehicle trying to get a license plate number. The vehicle began driving at a high rate of speed and as I turned onto Highway 105 from the bridge I saw the vehicle turn into the Starbucks parking lot. When I got to that area the vehicle was out of sight. I returned to the pub. While trying to get the license plate, I called 911. They said they had a deputy on the way. When I returned to the pub I noticed a screen was off of one of the back windows and the back door was partially open. I then called the owner. The deputy arrived and cleared the building. The owner arrived and reviewed the video. The suspects attempted to open the window and when they couldn't they used a tool and pried the back door open. Case # 20-11216 was assigned by EPSO.

RP called and stated that he had just hit a deer on Woodmoor Drive and the deer was still breathing. I responded and the vehicle had no damage and the deer had stopped breathing. I called State Patrol and they said the driver could report the incident online if he discovers damage to his vehicle. I called and left a message with County Roads to have the deer picked up.

While on patrol I found VID 3029 and a black SUV (unknown make/model with no rear license plate) parked in the parking lot of the Marsh Common Area. I contacted PIDs 6110 and 6111 in the black SUV. After ascertaining PID 6110 was there of her own volition, I advised them that the common areas in Woodmoor are closed after dark and they needed to leave. The black SUV was driven by PID 6110 and the Honda was driven by PID 6111. Both parties left in their own vehicles without incident. BWC footage available.
